Our easy to use allergen guide is available for you to use on the food section of our website or on our Glass Onion app. We keep it online so that it's always as up to date as possible and you can filter out dishes containing any of the 14 major allergens. If you can't access the internet, we will be happy to provide you with the information. Our food and drinks are prepared in food areas where cross contamination may occur and our menu descriptions do not include all ingredients. If you have any questions, allergies, or intolerances, please let us know before ordering. (V) = made with vegetarian ingredients, (VE) = made with vegan ingredients, however some of our preparation, cooking and serving methods could affect this. If you require more information, please ask your server. Fish dishes may contain small bones. Vitamin C, D, A, B12 and Folate contribute to the normal function of the immune system. Potassium contributes to normal functioning of the nervous system. All calories are correct at the time of menu print. Live nutritional information is available online.
